

**Saskatchewan Alfalfa Seed Producers  
Development Commission  
(SASPDC)**

*SASPDC Strategic Research & Development Priorities  
May 2025*

**1. Alfalfa leafcutting bee research**

- a) Parasite control in alfalfa leafcutting bee populations
- b) Disease control in alfalfa leafcutting bee populations
- c) Parasite / disease monitoring in Saskatchewan alfalfa leafcutting bee populations
- d) Alfalfa leafcutting bee alternative crop pollination research
- e) Work to support development of alfalfa leafcutting bee biosecurity programs

**2. Alfalfa seed production agronomy**

- a) Insect pest control in alfalfa seed production
- b) Disease control in alfalfa seed production
- c) Weed control in alfalfa seed production
- d) Minor use registration of crop protection products for alfalfa seed production
- e) Soil fertility in alfalfa seed production

**3. Alfalfa crop development research**

- a) Alfalfa breeding research / development of new alfalfa varieties
- b) Research on benefits of alfalfa in crop rotation
- c) Research on benefits of mixed alfalfa / sainfoin / grass stands
- d) Research on value of incorporating alfalfa in dairy cattle / beef cattle ration
- e) Research on value of alfalfa in carbon sequestration
